

ADVISORY TO INDIANS

It has been brought to this Embassy's notice that some unscrupulous elements in Europe are trying to dupe Indian nationals posing as Indian Embassy officials.

The fraudsters contact Indian immigrants claiming to be the employees of Indian Embassy and collect personal information about the immigrants and their families. They claim that there are some legal proceedings against the individual or his family either by the government of the host country or by the Indian government. They offer legal help to solve the case and demand money. This is to confirm that the employees of Indian Embassies abroad do not make such calls. Anybody receiving such calls must contact the Embassy of India concerned and verify the facts.
